

## **Heritage Festival**

The Tasmanian Heritage Festival — a major project for the Trust during the past 3 months — has been held throughout the month of April. This Heritage Festival is significantly larger than last year with some 77 Events organised (this is some 24 more than 2006). Importantly the events are spread throughout the state and see the involvement of a number of commercial organisations who are demonstrating on a daily basis the economic value of heritage to the Tasmanian economy.

The events were finalisation of planning for the statewide Heritage Festival. Co-ordinated by Jennie Chapman the Festival is supported by both the State and Federal Governments and is an important part of our present funding agreements with them.

The National Trust and Heritage Tasmania have commissioned a review of this year's Festival with the intention of assessing how it might be improved further. A major consideration will be that of scheduling of the Festival and the possibility of it being held in spring rather than autumn when Tasmania is awash in major events.
